

Lehigh-Type Bin

The Lehigh-type bin is easy to erect and disassemble. It is adjustable in size, attractive, portable, long-lasting, and it provides for proper ventilation and protection.

Materials

Four 12 foot 2x4

Four 40 inch pieces of $\frac{3}{8}$ inch rod

Tools

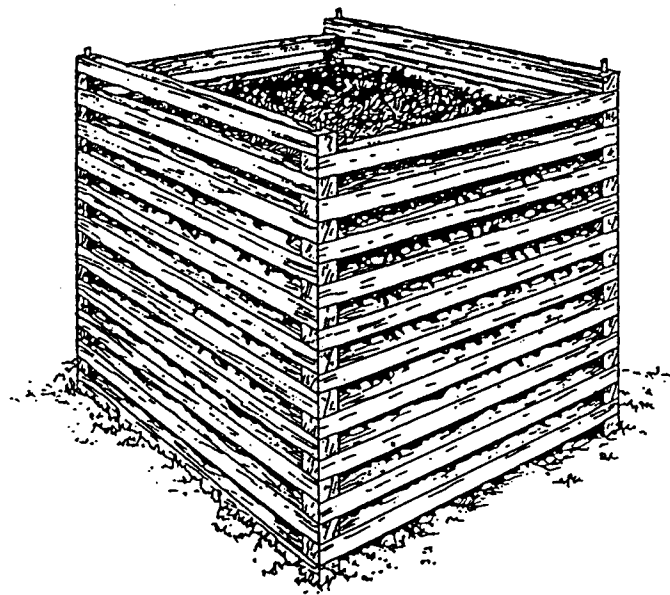

Skill saw

Drill with $\frac{1}{2}$ inch bit

Hammer

Tape measure

Pencil

Steps

- Cut the 2x4's into 3-foot pieces.
- Drill a $\frac{1}{2}$ -inch hole through the 2 inch side, an inch from each end.
- Fit the 2x4s over the $\frac{3}{8}$ -inch rod, alternating sides of the bin.
- Finish by driving the rods into the ground up to the top of the bin.
